As a front-end developer with 2 years of experience, I possess a strong understanding of designing and developing engaging and responsive websites and applications. Proficient in HTML, CSS, Tailwind CSS, JavaScript, Typescript and various front-end frameworks including React and Nextjs, I am committed to creating visually appealing and user-friendly experiences that exceed client expectations. With a passion for staying up-to-date with emerging technologies and industry standards, I am dedicated to continuous learning and improving my skills. I have collaborated with cross-functional teams to successfully deliver projects that have generated positive business impact. As a driven and detail-oriented individual, I am excited to bring my skills and experience to a new role in order to deliver exceptional results.

🎓 Education

Bachelor of Sciences, *The Federal University of Technology, Akure, Nigeria*   2017 – present
                                                                                               Akure, Nigeria
